Accurate. Versatile. Durable. Profitable. Proven.

Since 1868, Fletcher-Terry has revolutionized advanced cutting solutions for numerous global industries. Our versatile ALTA99 multi-material Cutter is geared towards volume cutting where production output is required with a full range of rigid substrates either with a pre-printed or posted printed graphic application. The ALTA99 cuts aluminum composite and aluminum sheet materials, debris-free, enabling you to place it in the same work area as your dust-sensitive printing device.

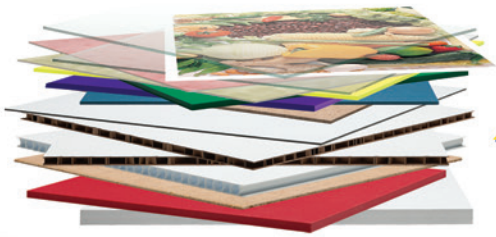

Ask your distributor about our new Substrate Swatch Book to assist you in your cutting needs.
