

FOR IMMEDIATE RELEASE

The Fletcher-Terry Company, LLC

## **Fletcher-Terry Announces NEW Convenient Packaging for Fletcher's Automated Glass Cutting Technology**

**Fletcher-Terry LLC**, Farmington, Connecticut, USA: Announces its market exclusive blister packaging, designed to package Fletcher's line of carbide cutting wheels, inserts, clip units and axles, offering customers the benefits of easier component identification at the process line and improved inventory control. This innovation provides easy component identification for process line operator reducing the risk of using wrong wheel angle or other glass cutting components. This also allows for customized package labeling based on individual customer needs e.g., production line identification, company's internal code or part number, aiding internal process control standards. This unique customized labeling and packaging improves customer's inventory and cost control as compared to existing packaging standards.

### **About Fletcher**

Since 1868, Fletcher-Terry has revolutionized advanced cutting solutions for numerous global industries. This packaging enhancement displays Fletcher's industry experience and continuous effort towards customer satisfaction.

Today, with a distribution network to 60 countries worldwide, we are proud to serve the glass production & fabrication industries, sign & graphic, picture framing and retail hardware, while continuing to provide advanced cutting methods and outstanding global customer service support. Staying one step ahead of your material cutting, scoring and trimming needs has made us a global leader.
