THE FLETCHER-TERRY COMPANY, LLC ANNOUNCES MOVE TO NEW CORPORATE & MANUFACTURING FACILITY

Fletcher-Terry is pleased to announce that the company is relocating to a new operating and manufacturing facility in East Berlin, Connecticut, USA. The new 47,000 sq. ft. facility will house its manufacturing, warehousing, sales and marketing, customer service and the senior management team. The move scheduled to be completed by the middle of August 2011, is located 25 minutes south of Hartford, CT and about 45 minutes from the Bradley International airport.

During the move to the new facility, Fletcher-Terry's global customers will see no disruption of product shipments, inventory availability or customer service support.

“The new facility provides us increased manufacturing, R & D and inventory space for a number of growth opportunities we see coming in the future” stated Blair Tomalonis, President of Fletcher-Terry Company. Mr. Tomalonis continued to say “we see company opportunities in new product technologies and expansion into new global markets as we enter into our 144th year of business.”

The new facility will feature a product display area allowing Fletcher's distributors and customers to experience firsthand, the performance value that Fletcher substrate cutters provide to users.

The complete company contact information is listed below. The only contact information that will change is the street address and town location. All telephone, fax numbers and e-mails will remain the same.

About Fletcher

Since 1868, Fletcher-Terry has revolutionized advanced cutting solutions for numerous global industries. Fletcher's innovations have rewarded the company with over 90 patents including the “original” glass cutting wheel, the first vertical glass cutting machine and the “wide-track” all carbide cutting wheel. Today, with a distribution network to 60 countries worldwide, we are proud to serve industries of glass production and fabrication, sign & graphic, picture framing and retail hardware.
