

# Fletcher 5500, 5600 and 5700 CornerPro™

**The Perfect Fit  
For Your Joining  
Needs.**

Optional working table provides much needed support for joining large frames.

Optional hexagonal/octagonal fences provide a solid and accurate fixture for joining multi-angle frames.

High quality, durable, time-tested joining equipment...now available from Fletcher-Terry.

We've partnered with an industry leader in manufacturing excellence to deliver a family of rugged, high quality, highly versatile underpinners. Pilm underpinners are known worldwide not only for their strength, durability, and reliability, but also for their

simplicity, accuracy, and wide range of ability.

Industry leaders for over a century with innovative products, top notch customer service and an honored brand, Fletcher-Terry now offers the CornerPro™ underpinners from Pilm.

Three models to choose from, and a host of accessories avail-

able for each, provide an underpinner for every picture framing environment.

**Complete package includes:**

- Instruction video
- Detailed owner's manual
- Comprehensive tool box
- Two (2) year warranty

Available in certain territories

## 5500 CornerPro

A fully functional, value-driven manual underpinner.

- No air or electricity required
- Ideal for low volume professional framers who will not sacrifice quality
- Foot actuated joiner with double clamping, vertical and horizontal, providing necessary security while simultaneously inserting a single nail; additional nails can be stacked by pressing the pedal a second time
- Accommodates five sizes of standard or hardened nails and can just as easily be used from the front or the back
- Comes equipped with two interchangeable clamps for joining any kind of moulding: hardwood, softwood, and MDF
- Includes 7mm and 10mm thickness compensators

## 5600 CornerPro

The most widely used pneumatic underpinner.

- Engineered to quickly produce the widest variety and highest quality frames with confidence
- Tabletop design has a small footprint and fits easily into the most efficient spaces
- Optional stand provides greater flexibility - the machine can be placed just about anywhere
- Accommodates five sizes of standard or hardened nails; a single nail can be driven or multiple nails can be stacked easily and accurately with the press of a foot switch
- Operational from the front or the back and is equipped with adjustable horizontal and vertical clamps to tackle the most unique frame profiles
- Includes 7mm and 10mm thickness compensators

## 5700 CornerPro

A robust and flexible production-level underpinner.

- Designed to withstand the rigors of high volume framing for years
- Includes all the versatile features of the 5600 with the addition of a simple, yet versatile sliding nailing head and an unmatched working range
- Hydraulic, continuous auto leveling clamps manufactured of tempered steel
- Single and stacked nails can be driven with the same amount of effort
- Multiple accessories are available to further increase productivity and accuracy
- Includes 4mm, 7mm, 10mm and 12mm thickness compensators

### 5500 ACCESSORIES

Part #	Description
04-340	Felt Clamp
04-341	Extension Wings
04-342	Fence Risers
04-344	Thickness Compensator (4mm nails)
04-347	Thickness Compensator (12mm nails)
04-353	Hexagonal & Octagonal Fences

### 5600 ACCESSORIES

Part #	Description
04-340	Felt Clamp
04-341	Extension Wings
04-342	Fence Risers
04-343	Working Table
04-344	Thickness Compensator (4mm nails)
04-347	Thickness Compensator (12mm nails)
04-353	Hexagonal & Octagonal Fences
04-324	Tilting Stand

### 5700 ACCESSORIES

Part #	Description
04-341	Extension Wings
04-342	Fence Risers
04-343	Working Table
04-348	Air Filter Lubricator
04-352	Auto Gluing System
04-353	Hexagonal & Octagonal Fences
04-354	Counterweight Balancer for Nailing Head (for use with Tilting Stand)
04-356	Tilting Stand
04-325	Closet Stand
