HANDLES

Fletcher FlexiMaster®

**Versatile Frame Fitting Tools
With New Comfort Grip Handle.**

FrameMaster®...The Framer's Choice. Time And Time Again.

The Fletcher FrameMaster is the industry's most popular frame-fitting tool. This point driver is perfect for any framing application where a secure fit is required. While framer's points are removable with the Fletcher PullMate™, they are designed to secure themselves in the frame.

Best of all, it fires perfectly flat to ensure a tight fit every time.

Features

- Precision firing; no jamming or double feeding
- Spring-adjusted firing power to match wood density
- Easy-to-load magazine holds 100 points for reduced downtime
- NEW rubber grip handle ergonomically designed to eliminate hand fatigue and increase comfort and ease of use

FlexiMaster®...A Time Tested Classic Framing Tool.

The Fletcher FlexiMaster is ideal for any frame-fitting application where you need flexible points. This driver provides a tight, flat fit with the added benefit of points that can be bent out of the way to change the frame contents or open the framed artwork for cleaning.

Features

- The easy-to-load magazine holds 170 [.015" (.381mm) thick] flexible points
- Adjustable spring mechanism lets you adjust the tension to suit the framer and the specific wood density
- Lightweight design and full-grip trigger provide comfortable firing of points
- NEW rubber grip handle ergonomically designed to eliminate hand fatigue and increase comfort and ease of use

FRAMEMASTER PART NUMBERS

Part #	Description
07-500	FrameMaster Point Driver
07-555	FrameMaster Point Driver (with sleeve)
08-950	Framer's Points 5/8" (16mm) Long (3,000/box)
08-980	Glazier's Points 3/8" (9.5mm) Long (5,000/box)
08-990	Glazier's Points 3/8" (9.5mm) Long (1,000/tube)

FLEXIMASTER PART NUMBERS

Part #	Description
07-700	FlexiMaster Point Driver
08-955	Flexible Framer's Points 5/8" (16mm) Long (3,700/box)
08-965	Flexible Framer's Points 5/8" (16mm) Long (10,000/box)

For best results (i.e. to avoid jamming/firing problems), we recommend using only Fletcher brand points.

Fletcher Manual Point Drivers

Fletcher MultiMaster™

NEW COMFORT GRIP HANDLE

**The Perfect Tool
For Stacked And
Liner Moulding Work.**

MultiMaster™

The MultiMaster is a unique frame-fitting tool that is perfect for attaching multiple mouldings (i.e. stacked or liner mouldings) in the same frame. The MultiPoint offers a patented "double barbed" design which locks itself into the frame. Combined with a screw, which is accommodated by the hole in the point, the MultiPoint provides a secure fit between mouldings.

Features

- Eliminates the need for glue, nails, or off-set clips in stacked/liner moulding work
- A "flush-to-the-frame" fit, every time
- Easy-to-load magazine holds

MULTIMASTER PART NUMBERS

Part #	Description
07-800	MultiMaster Point Driver
08-975	MultiPoints (3,000/box)

approx. 167 MultiPoints per stack

- A spring adjustment allows you to adjust for wood density
- NEW rubber grip handle ergonomically designed to eliminate hand fatigue and increase comfort and ease of use

Our Flexible Multi-Points offer a multitude of benefits of their own:

- Double-barbed design and a wide body for increased holding power
- Easy to bend for quick removal of glass, artwork, and matboard

#5 POINT DRIVER PART NUMBERS

Part #	Description
07-111	#5 Point Driver
08-111	#1 Diamond Points 3/8" (9.5mm) Long (4,000/box)
08-211	#2 Diamond Points 1/2" (12.7mm) Long (4,000/box)
08-311	#5 Triangle Points 3/8" (9.5mm) Long (2,700/box)

#5 Point Driver

#5 Point Driver

The Fletcher #5 Point Driver is a rugged tool for both framing and glazing applications. Constructed of zinc diecast, this easy-to-fire, lightweight tool provides uniform penetration and fires stacked wax-free diamond and triangle points that won't jam or double fire.

- Full grip trigger helps to reduce fatigue
- One-point-at-a-time precision firing; no double feeding
- Holds 100 points for fewer reloads
- Accommodates three point sizes in two styles
