THE FLETCHER-TERRY COMPANY LLC ANNOUNCES TWO NEW HIRES TO SENIOR TEAM

The Fletcher-Terry Company LLC, Farmington, Connecticut, USA (www.fletcher-terry.com) recently announced the addition of two senior professionals joining the team to support the demands of its industrial glass cutting business. "This is the continuation of our planning to strengthen our resources at all levels for this business," stated President of Fletcher-Terry, Blair Tomalonis.

Fletcher-Terry is pleased to announce the appointment of Mr. Ray MacQueen, Jr. as Senior Development Engineer and Mr. Keith Battige as Director of Glass Production Sales. With a combined 40 plus years of industry experience, these two will mesh technical engineering and manufacturing skills with the crucial understanding of customer needs. In correlation these two additions will fulfill Fletcher's ongoing efforts in expanding its scope and service within the global marketplace.

Ray MacQueen has over twenty years of manufacturing and product design engineering experience and will focus on enhancing the technology and functionality of Fletcher's pillar posts. He will be responsible for growing Fletcher's value and quality engineering controls increasing overall reliability and customer satisfaction with the product.

Mr. Battige has over twenty years of related experience in military and commercial markets and will head up Fletcher's global sales efforts for its industrial glass cutting technology. Working with Mr. Battige is Mr. Brian Cone, Product Line Manager and Mr. John Wu, head of our Asian Sales Group.

The Fletcher-Terry Company is committed to our customers by strengthening our team. Please join us in welcoming our new team members.

About Fletcher

Since 1868, Fletcher-Terry has revolutionized advanced cutting solutions for numerous global industries. Fletcher's innovations has rewarded the company with over 90 patents including the "original" glass cutting wheel, the first vertical glass cutting machine and the "wide-track" all carbide cutting wheel. Today, with a distribution network to 60 countries worldwide, we are proud to serve the glass production and fabrication industries, sign & graphic, picture framing and retail hardware, while continuing to provide advanced cutting methods and outstanding global customer service support.
